2. Advised [REDACTED] O/RR, that upon review of the record in 25X1A9a the [REDACTED] case, that both the assistant to the DD/A [REDACTED] and myself concurred that it was appropriate to give [REDACTED] a warning 25X1A9a memo with her PER. I also discussed further with [REDACTED] the 25X1A9a [REDACTED] and recommended that memoranda now be prepared to I&S outlining our minimum requirements. It is believed that based on the recent discussions, that I&S concurrence can be secured which will be satisfactory to our needs.

25X1A9a 3. Concurred in the draft regulations which had been prepared by [REDACTED] at DD/A request providing instructions for the sterilization of regulatory material for field issuance.

4. Consulted with [REDACTED] O/RR, on appropriate action to be taken in connection with the extension of the [REDACTED] About \$35,000 will be required to replace unexpended balances which will expire on 30 June 1953 under the 2-year limitation.

25X1A9a 5. Discussed with [REDACTED] the O/SI supergrade situation and it was agreed that every effort should be made to secure approval of a GS-17 for [REDACTED]. It was also agreed that it was inappropriate to take any further action at this time on the pending request for a GS-18 for [REDACTED] 25X1A9a [REDACTED] which the supergrade board had recently recommended against. The DD/I proposal in the recent super-grade review was for two 18s and a 17, and there is a serious question as to whether three 18s for O/SI are justified. [REDACTED] presently occupy the two available GS-18s).
